0.3 About the Author

Hello, let me introduce myself. I am ?? student even a human, currently living in O , the Netherlands, Europe. Actually, when I entered College I for the first time got into contact with Unix like Operating systems, not be studying, but by joining in the local Internet Users Association Interlink. I required lot of ance and knowled then.

The first to and creating a mud, of course, is l in on . I h nd to frequent some times on An sion, h nd 7(v 28(n, -2 l(ln -28l(time -28l(on -282(h -282(m 28(bitlon -2 l n3l , just

6 Generating Miscellaneous Files

6.1 Maps

Maps will be created using GImp. The text content on the map is "theme " and the size = 12.

6.2 Banners

Banners for use on other web sites will be created using GImp. Included if (3

6.3 Documentation

All documentation of the game will be done in the format of "Latex" (.tex Diagrams will be written with XFIG and included using the .pdf and . format. In order to generate the different formats for viewing of the documentation, the following commands are available: generate dvi (latex command.tex , generate pdf (pdflatex command.tex , generate (pdf2 command. pdf . This should generate different format files i .tex , .dvi, . pdf, .
